

NGUYEN MINH HIEU

PRODUCT MARKETING SPECIALIST | Gaming & SaaS Growth

Phone: +84 948017555 | Email: ronnguyen1100@gmail.com | [LinkedIn](#)

Product Marketing Specialist with 4+ years at Ubisoft driving GTM strategy, player acquisition, and retention for gaming titles across multiple platforms. Expert in building positioning & messaging frameworks, executing A/B testing programs, and translating user research into product-led growth strategies that improve activation, feature adoption, and LTV. Proven cross-functional leader with experience aligning Product, Engineering, and Design teams around shared OKRs and launch KPIs.

PROFESSIONAL EXPERIENCES

UBISOFT DA NANG

Mar 2022 - Present

Product Marketing Specialist

- Engineered end-to-end GTM strategies for over 5 title launches, developing messaging frameworks and player persona models that reduced CAC and drove a 15% increase in Day-1 player acquisition.
- Designed and owned A/B testing programs across onboarding flows and in-game marketing touchpoints, improving conversion rate and feature adoption by 10% and reducing early churn through data-driven iteration.
- Conducted mixed-method user research (playtesting, surveys, cohort analysis) to build segmentation strategies and onboarding optimization plans, improving D30 retention.
- Partnered with Product, Engineering, and Design in Agile sprints to align alpha-phase feature roadmaps with player LTV data and market sizing insights, ensuring highest-impact features shipped on schedule.
- Led win/loss analysis and competitive intelligence tracking across multiple genres (Metroidvania, RPG, Auto battler, ...) , producing battlecards and positioning briefs that sharpened differentiation.
- Developed sales enablement and influencer/community marketing assets — store page copy, pitch decks, trailer briefs — that contributed to products' growth in pre-launch registrations and over 10% increase in organic discoverability.
- Negotiated strategic partnerships and vendor contracts, compressing GTM timelines by 10% while maintaining compliance with global brand standards.

SELF-EMPLOYED

Oct 2020 - Jan 2022

Multi-functional Designer

- Delivered full brand identity systems and CRO-optimized landing pages for 10+ clients in gaming and entertainment, reducing CAC and improving click-to-signup conversion rates by 25–40%.
- Developed content strategy frameworks and social campaign creative that drove 30% average audience engagement growth; introduced NPS/CSAT feedback loops to continuously refine retention messaging.
- Advised clients on user onboarding optimization and feature adoption pathways, reducing time-to-value and improving 90-day retention benchmarks across client products.
- Streamlined creative briefing and revision workflows, reducing average project delivery time by 15%.

LIBERZY AGENCY
Marketing Intern

Nov 2020 - May 2021

- Contributed to multi-channel social and email campaigns that increased qualified lead volume by 10% QoQ, tracked against revenue growth KPIs via weekly performance dashboards.
- Designed A/B-tested landing page creatives within an Agile sprint cadence, iterating on messaging and visual hierarchy to improve campaign-to-signup conversion rates.
- Analyzed campaign performance data across 3+ client accounts to generate actionable CRO insights, supporting iterative strategy optimization.
